DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: On page 5, line 18, the sentence ends inappropriately with a semicolon and period (“;.”).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3, 13, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 contains the trademark/trade name DG001. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a glass coating paste and, accordingly, the identification/description is indefinite.

Claim 13 contains the trademark/trade name DC206. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a glass coating paste and, accordingly, the identification/description is indefinite.

Due to its dependency, claim 14 is necessarily included in this rejection.

Allowable Subject Matter

4. Claims 1, 2, 4-12, and 15-18 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a method for fabricating a mesh structure mounted between an anode plate and a cathode plate of a tetraode field-emission display, comprising: forming a soft insulation coating layer on a flat film; laminating a metal conductive plate as a converging electrode layer with a plurality of first apertures to the coating layer, such that a filler of the coating layer is filled in each first aperture; removing the coating layer but remaining the filler in each first aperture after baking; forming another coating layer on the converging electrode

layer as an insulation layer; sintering to harden the insulation layer; forming a gate layer with a plurality of third apertures corresponding to the first apertures on the insulation layer, respectively; sintering to have the gate layer firmly attached on the insulation layer; forming one protective layer on the gate layer with a plurality of through holes corresponding to the third apertures, respectively, such that a plurality of second apertures are formed on the insulation layer by etching; forming another protective layer on the converging electrode layer with another through hole corresponding to each first aperture, such that each filler is removed by etching; and removing the first and the second protective layers.

Due to their dependency, claims 2, 4-12 and 15-18 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
